PIONEER® BRAND VORCEED® ENLIST® CORN PRODUCTS

P12517V 112 CRM/115 Silk CRM

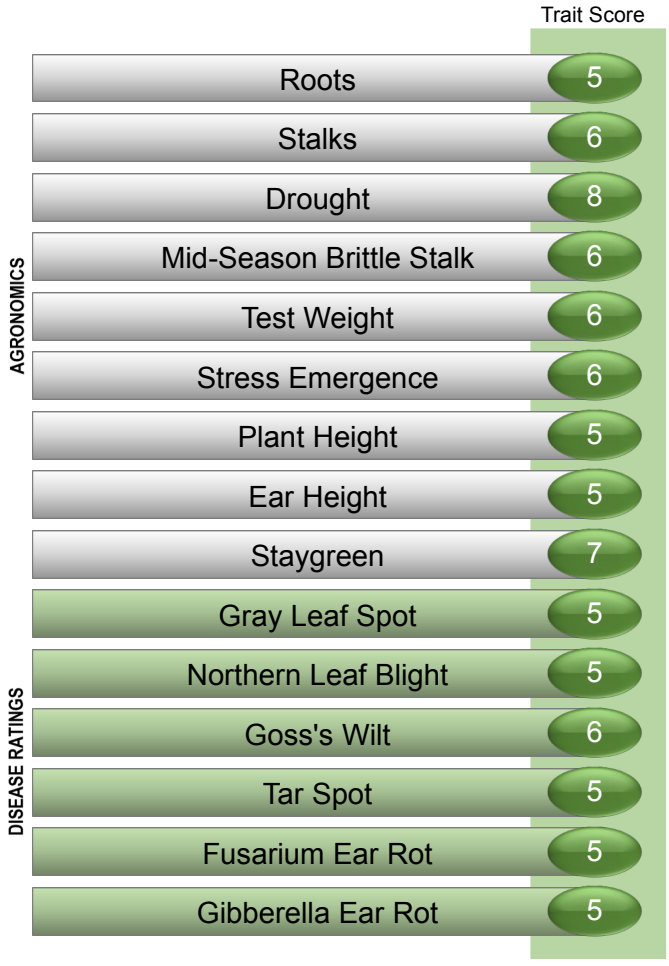

NEW

VORCEED Enlist

Vorceed® Enlist® corn will enable multi-year flexibility to manage your corn rootworm (CRW) acres through more options than any other CRW product with multiple modes of action to control insects and tough weeds to help you maximize your ROI opportunities. Superior yield potential and agronomics from one of the largest corn germplasm libraries in the industry round out the product package for a whole corn solution.

Management Insights

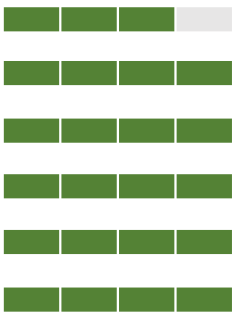

- Late silking 112 CRM product with strong agronomics and excellent performance at all yield levels
- Excellent drought tolerance, strong mid-season brittle stalk resistance and good late-season plant health
- Strong stress emergence and favorable test weight
- Favorable disease package

Ratings: **9** = Excellent; **1** = Poor; Blank = Insufficient Data or variety not tested for that particular trait. Ratings denoted with a double asterisk (**) reflect preliminary data subject to change when additional data becomes available.

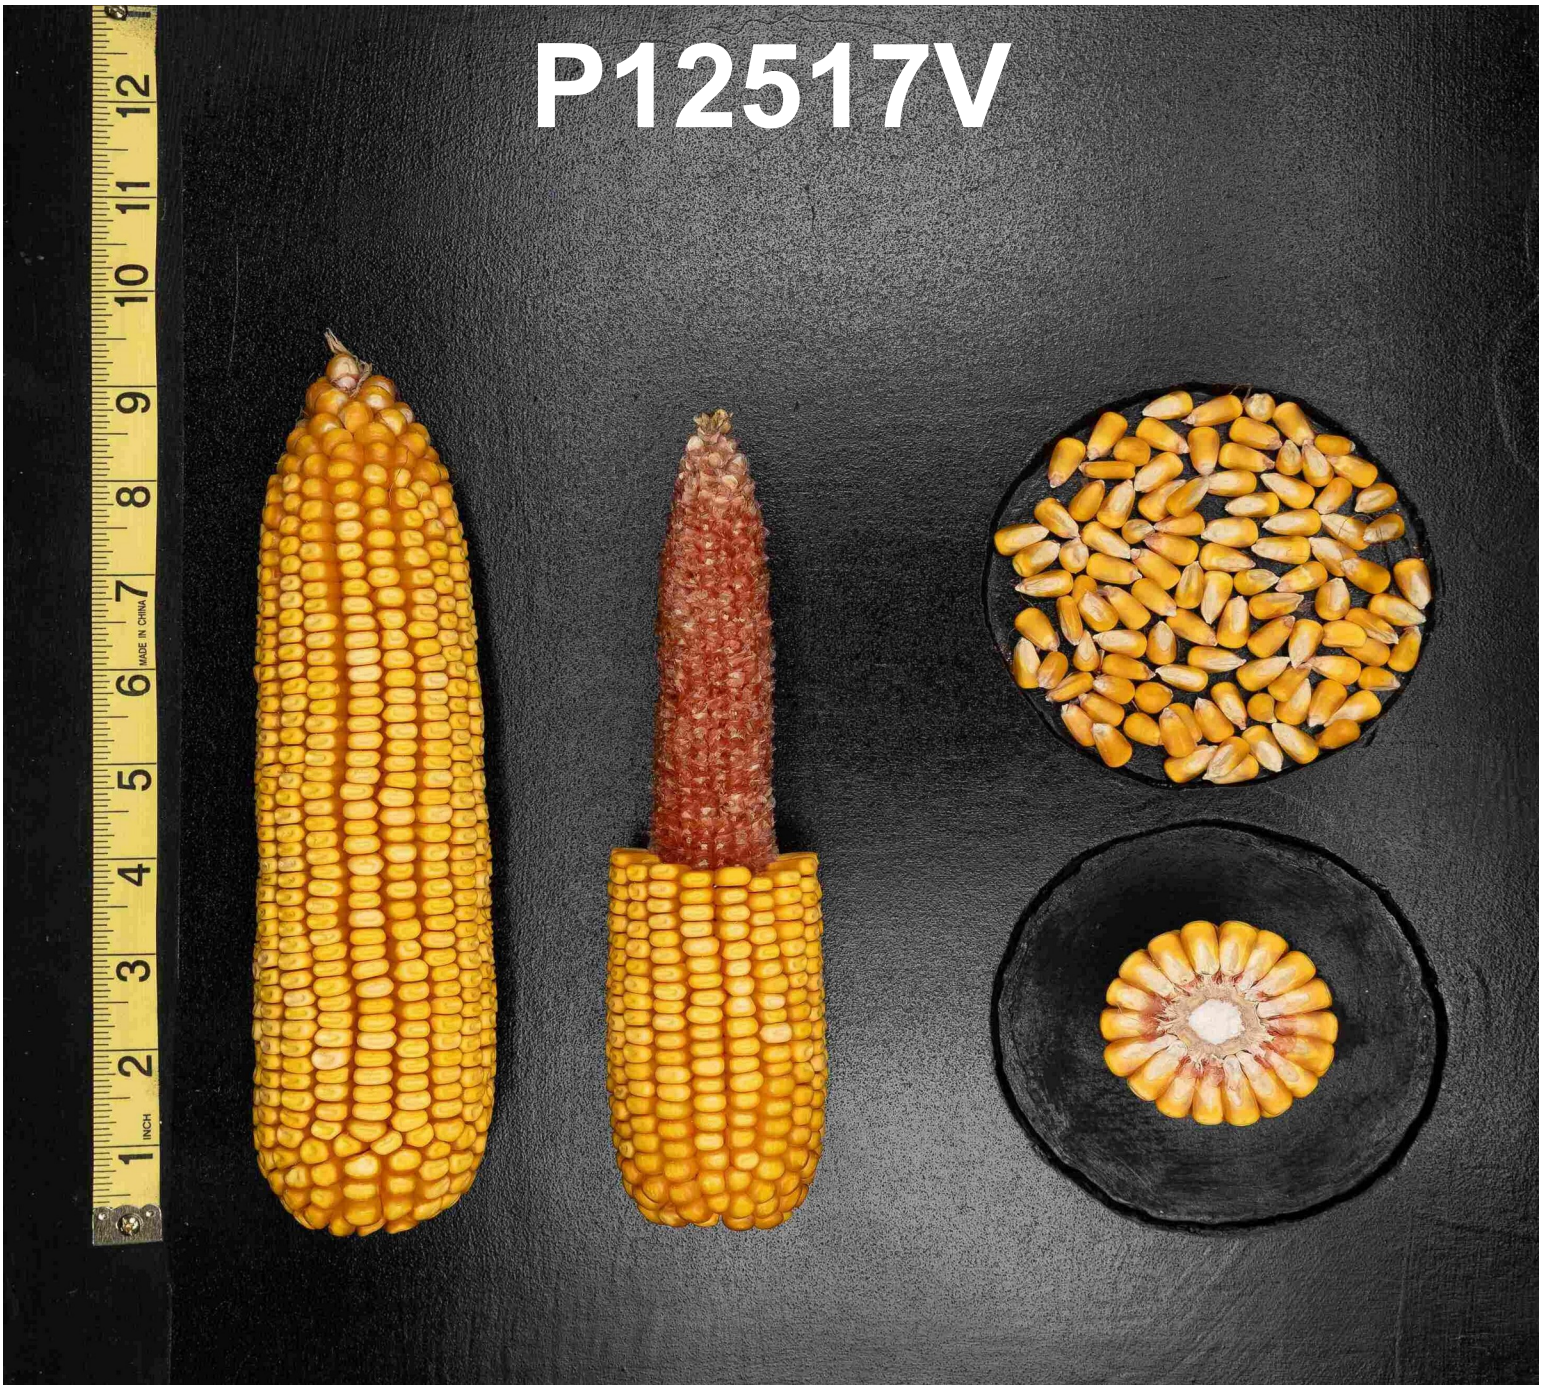

Suitability and Placement Guide

Poorly Drained Soils
Continuous Corn
Late Harvest
High Residue
Drought Prone Soils
Early Planting/Cold Soils

P12517V

V – Vorceed® Enlist® products with V, LL, RR2, ENL. Contains a single-bag integrated refuge solution with multiple modes of action for above- and below-ground insects. The major component contains the Herculex® XTRA genes, the RW3 trait and the VTP trait. In EPA-designated cotton growing counties, a 20% separate corn borer refuge must be planted for Vorceed Enlist products.

Roundup Ready is a registered trademark of Bayer Group. **LL** - Contains the LibertyLink® gene for resistance to glufosinate herbicide. **RR2** - Contains the Roundup Ready® Corn 2 trait that provides crop safety for over-the-top applications of labeled glyphosate herbicides when applied according to label directions. **AQ** - Optimum® AQUAmax® product. **Product performance in water-limited environments is variable and depends on many factors such as the severity and timing of moisture deficiency, heat stress, soil type, management practices and environmental stress as well as disease and pest pressures. All products may exhibit reduced yield under water and heat stress. Individual results may vary.**

Roundup Ready is a registered trademark of Bayer Group.

LibertyLink® and the Water Droplet Design are registered trademarks of BASF.
