INTRO

VORCEED Enlist

Vorceed® Enlist® corn will enable multi-year flexibility to manage your corn rootworm (CRW) acres through more options than any other CRW product with multiple modes of action to control insects and tough weeds to help you maximize your ROI opportunities. Superior yield potential and agronomics from one of the largest corn germplasm libraries in the industry round out the product package for a whole corn solution.

Management Insights

- Exciting 118 CRM top-yielding hybrid that offers outstanding dual-purpose utility for grain or silage
- Favorable disease package including good Northern corn leaf blight and Goss's Wilt resistance along with favorable gray leaf spot and Fusarium ear rot resistance
- Attractive stature and ear placement with good stress emergence for early planting applications
- Best suited to more favorable moisture condition environments such as irrigation and limited stress acres

Suitability and Placement Guide

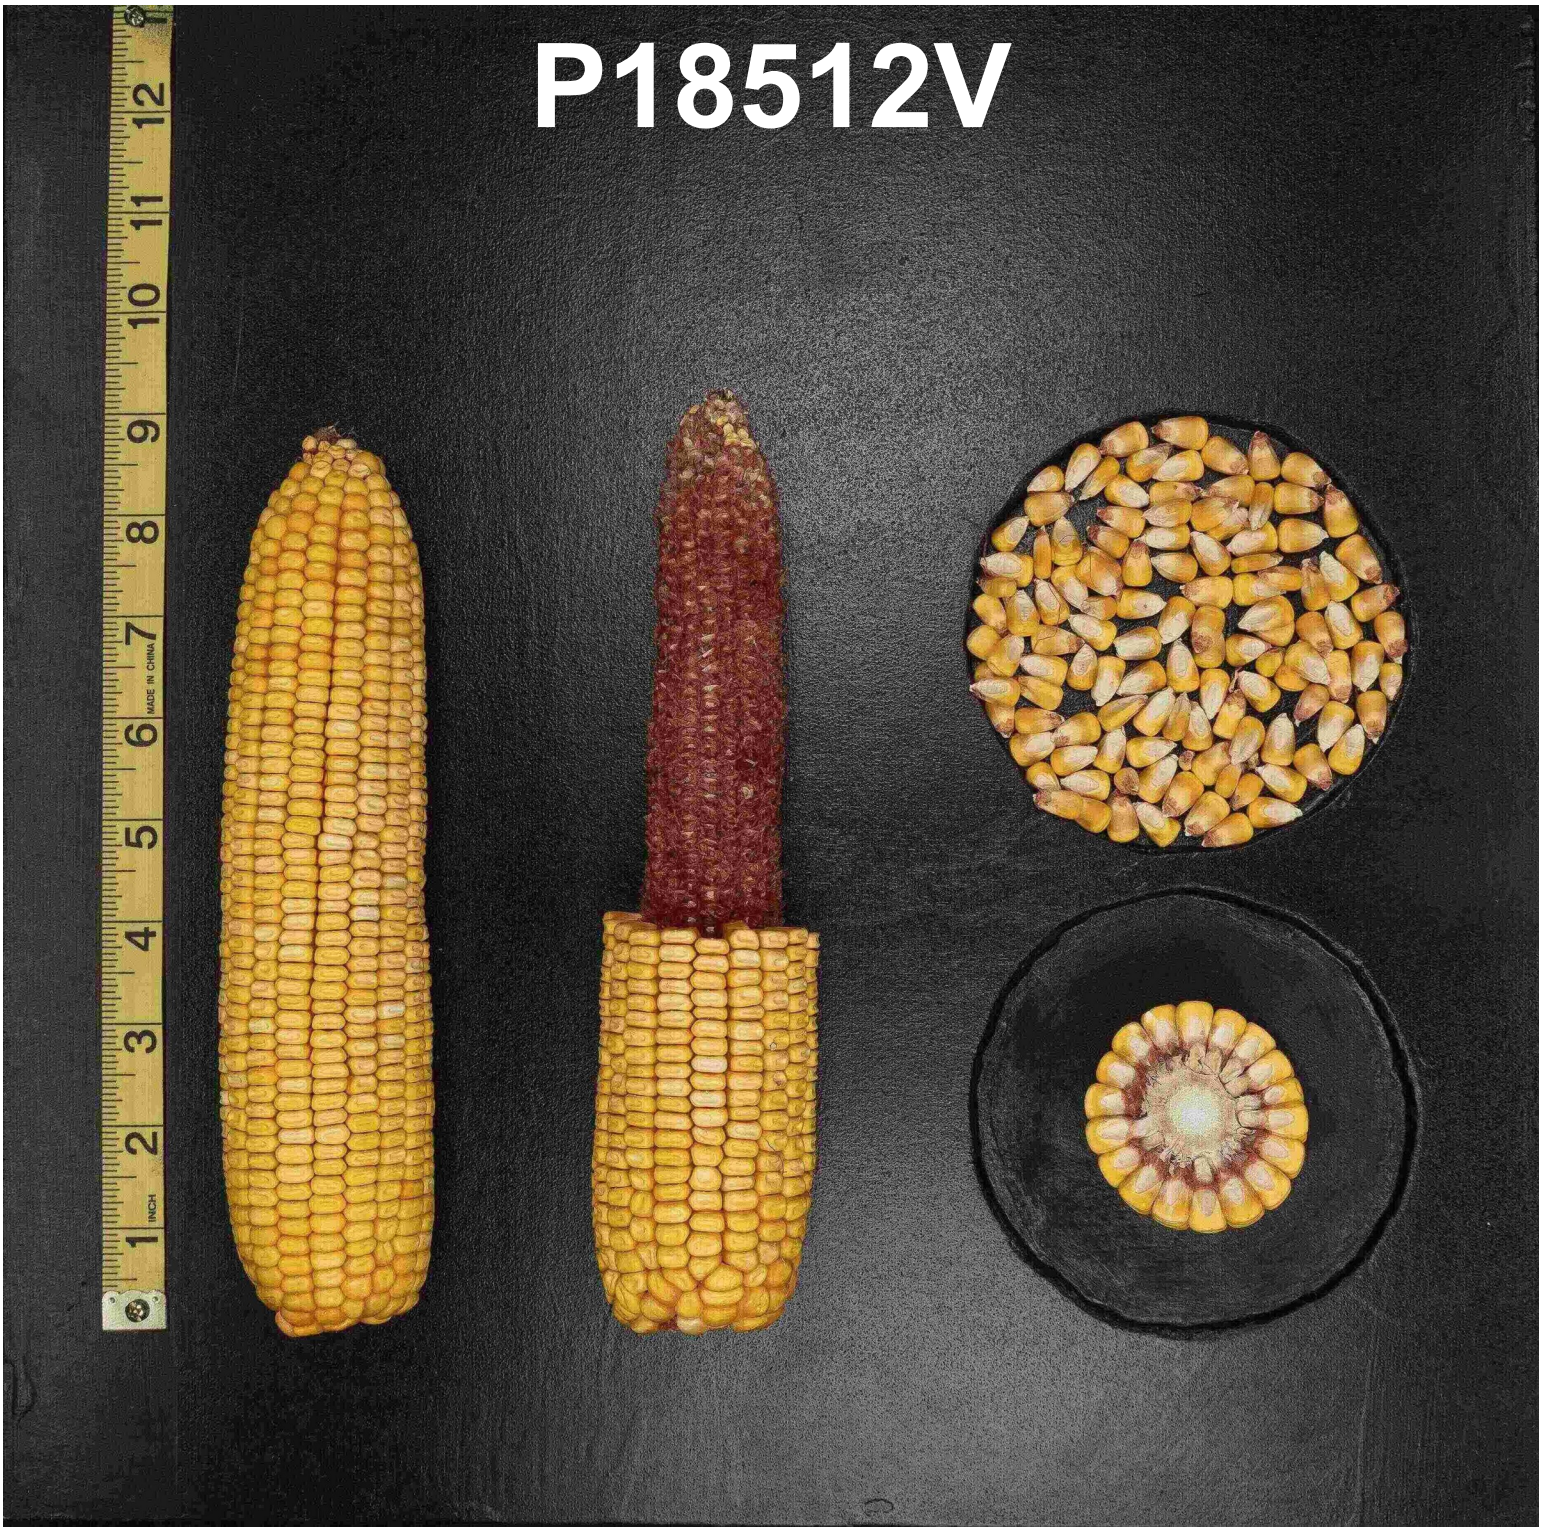

Highly Suitable | Suitable | Manage Appropriately | Poor Suitability

- Poorly Drained Soils
- Continuous Corn
- Late Harvest
- High Residue
- Drought Prone Soils
- Early Planting/Cold Soils

VORCEED Enlist | LIBERTY LINK | Roundup Ready CORN 2 | Optimum AQUAmax | PIONEER

V – Vorceed® Enlist® products with V, LL, RR2, ENL. Contains a single-bag integrated refuge solution with multiple modes of action for above- and below-ground insects. The major component contains the Herculex® XTRA genes, the RW3 trait and the VTP trait. In EPA-designated cotton growing counties, a 20% separate corn borer refuge must be planted for Vorceed Enlist products.

Roundup Ready is a registered trademark of Bayer Group. **LL** - Contains the LibertyLink® gene for resistance to glufosinate herbicide. **RR2** - Contains the Roundup Ready® Corn 2 trait that provides crop safety for over-the-top applications of labeled glyphosate herbicides when applied according to label directions. **AQ** - Optimum® AQUAmax® product. **Product performance in water-limited environments is variable and depends on many factors such as the severity and timing of moisture deficiency, heat stress, soil type, management practices and environmental stress as well as disease and pest pressures. All products may exhibit reduced yield under water and heat stress. Individual results may vary.**

Roundup Ready is a registered trademark of Bayer Group.

LibertyLink® and the Water Droplet Design are registered trademarks of BASF.
