POWERCORE ULTRA Enlist REFUGE ADVANCED

PowerCore® Enlist®: An advanced combination of high-yielding genetics, unsurpassed flexibility and protection against above-ground insects stacked with the Enlist® corn trait for multiple modes of action against tough weeds.

Management Insights

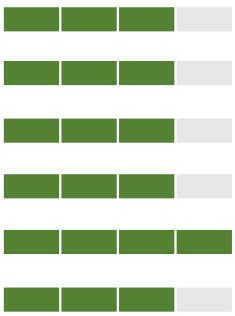

- Leader product with strong performance in multiple environments.
- Excellent drought tolerance
- Overall good disease package includes very respectable Goss's Wilt, Northern corn leaf blight & tar spot resistance.

Ratings: **9** = Excellent; **1** = Poor; Blank = Insufficient Data or variety not tested for that particular trait. Ratings denoted with a double asterisk (**) reflect preliminary data subject to change when additional data becomes available.

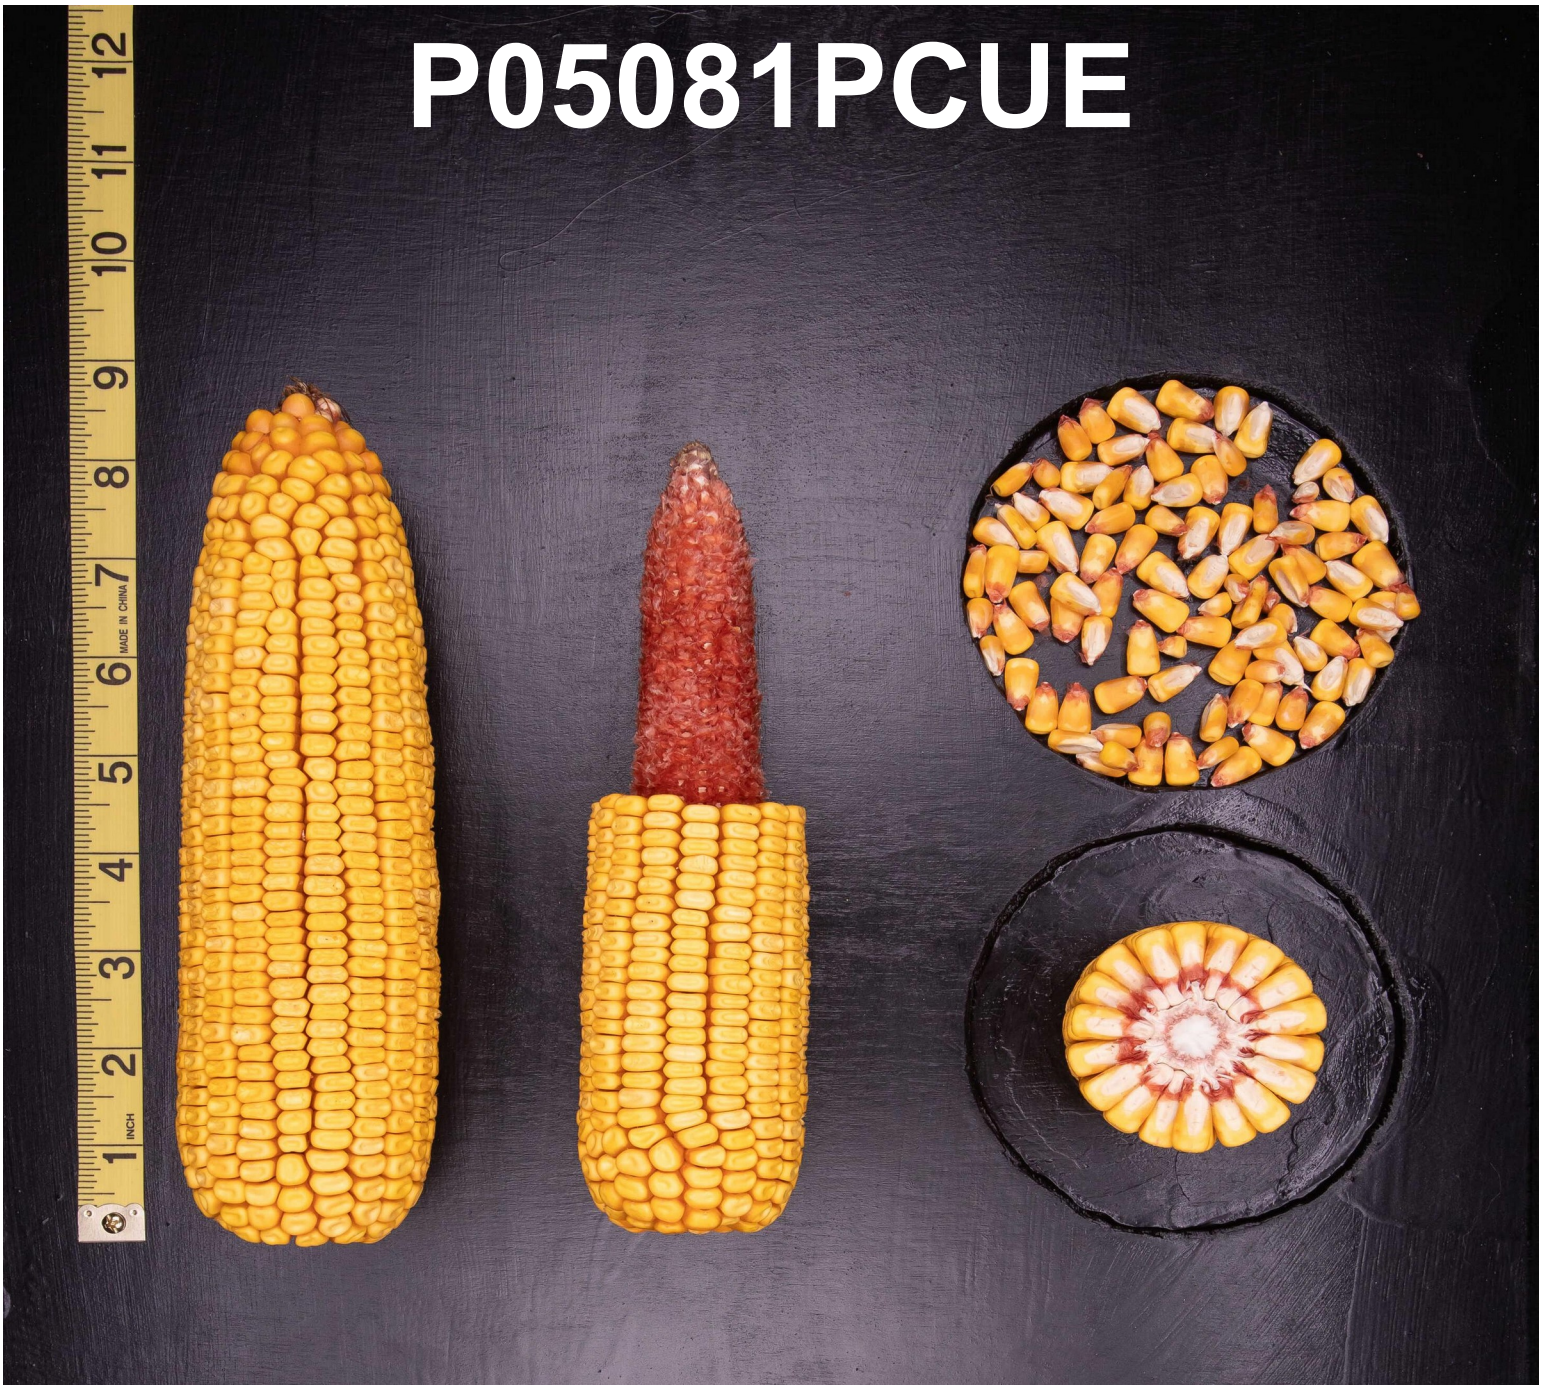

Suitability and Placement Guide

Poorly Drained Soils
Continuous Corn
Late Harvest
High Residue
Drought Prone Soils
Early Planting/Cold Soils

P05081PCUE

PCUE – Powercore® Ultra Enlist® Refuge Advanced® corn products with AVBL, HX1, VTP, ENL, LL, RR2. Contains a single-bag integrated refuge solution for above-ground insects. In EPA-designated cotton-growing counties, a 20% separate corn borer refuge must be planted with PowerCore Ultra Enlist Refuge Advanced products. **HX1** - Contains the Herculex® I insect protection gene which provides protection against European corn borer, southwestern corn borer, black cutworm, fall armyworm, lesser corn stalk borer, southern corn stalk borer, and sugarcane borer; and suppresses corn earworm. **LL** - Contains the LibertyLink® gene for resistance to glufosinate herbicide. **RR2** - Contains the Roundup Ready® Corn 2 trait that provides crop safety for over-the-top applications of labeled glyphosate herbicides when applied according to label directions. **AQ** - Optimum® AQUAmax® product. **Product performance in water-limited environments is variable and depends on many factors such as the severity and timing of moisture deficiency, heat stress, soil type, management practices and environmental stress as well as disease and pest pressures. All products may exhibit reduced yield under water and heat stress. Individual results may vary.**
